

CHANDAN VAISHNAV

MCA Student | Data Analytics & Data Science
chandanvaishnav0988@gmail.com | +91 80103 97815

PROFESSIONAL SUMMARY

MCA student with hands-on experience building end-to-end data projects, from data cleaning, EDA and machine learning modelling to interactive dashboards and a deployed web application. Proficient in Python, Pandas, Scikit-learn, Streamlit and FastAPI, with working knowledge of SQL, Power BI and Excel. Completed the Siemens Data Science Master Virtual Internship (EduSkills). Seeking a Data Science, Data Analyst or Machine Learning internship.

TECHNICAL SKILLS

Programming: Python, SQL, JavaScript, HTML, CSS; basic C and C++

Data Analysis: Data Cleaning, Exploratory Data Analysis (EDA), Pandas, NumPy

Machine Learning: Scikit-learn, Linear Regression, Random Forest, Decision Tree, KNN, Gradient Boosting, Information Retrieval (TF-IDF, Cosine Similarity)

Visualization & BI: Power BI, Matplotlib, Microsoft Excel

Web & Databases: Streamlit, FastAPI, SQLite

PROJECTS

PhishGuard – Phishing Website Detection Using Machine Learning

Technologies: Python, Scikit-learn, Random Forest, FastAPI, HTML, CSS, JavaScript, SQLite, Information Retrieval

- Built a web-based system to detect and assess phishing URLs using a Random Forest classifier trained on URL features such as length, HTTPS, subdomains, suspicious keywords, IP addresses, special characters and URL shorteners.
- Integrated DNS, SSL/TLS and URL security checks to add supporting risk evidence, and developed a risk assessment module showing risk score, verdict, confidence and security indicators.
- Applied Information Retrieval techniques, including a Multinomial Language Model, local PageRank, TF-IDF and cosine similarity, for URL analysis and historical similarity.
- Developed a web dashboard with URL scanning, scan history, statistics and security reports; deployed and tested the complete frontend and FastAPI backend in a production environment.

Smart Attendance Management System

Technologies: Python, Pandas, NumPy, Matplotlib, Scikit-learn, Streamlit

- Developed a data-driven attendance management and analysis system using a dataset of 277,153 attendance records.
- Cleaned and analyzed the data, visualized attendance patterns and trends, and built and compared Linear Regression, Random Forest, Decision Tree, KNN and Gradient Boosting models.
- Built an interactive Streamlit dashboard with attendance search, attendance percentage calculation, highest and lowest attendance analysis, and prediction of present students.

INTERNSHIP

Data Science Master Virtual Internship – EduSkills (Supported by Siemens) June 2026 – August 2026 (8 Weeks)

EDUCATION

Master of Computer Applications (MCA) , Savitribai Phule University	Pursuing
BBA (Computer Application) , Savitribai Phule University	CGPA: 7.40
HSC	65.6%
SSC	84.84%

CERTIFICATIONS

- Siemens Data Science Master – EduSkills / AICTE, 2026
- Google Data Analytics Professional Certificate – Coursera
- Machine Learning Professional Certification
- Data Engineering Master Certification
- Data Engineering Professional Certification
